ABSTRACT:

PURPOSE: To obtain a skin, scalp and hair agent effective for preventing and treating dandruff and itch on the skin and the scalp, having excellently inhibitory action on multiplication of dandruff fungi, containing a component of suppressing multiplication of dandruff fungi extracted from ground bamboo with a specific organic solvent.

CONSTITUTION: Ground bamboo such as *Phyllostachys bambusoides* Sieb. et Zucc., *Phyllostachys bambusoides* Sieb. et Zucc. Var. *aurea* Makino, *Phyllostachys pubescens* Mazel, *Phyllostachys nigra* Munro var. *henosis* Starf or *Phyllostachys nigra* Munro as a starting raw material is extracted with one or more organic solvents selected from benzene, chloroform, ether, ethyl acetate, n-butanol, acetone, ethanol and methanol to give a component of suppressing multiplication of dandruff fungi, which is blended as an essential component with an external preparation for skin, scalp and hair to give the external preparation or cosmetic having the above-mentioned effects, preventing effects on seborrheic eczema of the head and removal of hair, blood stream promoting effects on peripheral blood vessel of face and skin, inhibitory effects on formation of peroxide lipid, stabilizing effects on product and beautiful skin retaining effects (prevention of aging of skin).
